Detail-oriented software development graduate with a strong foundation in technical concepts and proven experience in software development. Skilled in programming languages and tools, with a track record of successfully delivering projects on time and meeting client requirements. Excited to leverage expertise in a dynamic team environment to drive innovation and achieve business goals.

Experience

Software engineer
03.2022 - Present

MGM Berlin

• Developed multiple applications using Spring Boot, TypeScript, Angular, and React JS, resulting in improved user experience and efficiency.
• Successfully completed projects on time and within budget, showcasing strong project management skills and attention to detail.
• Collaborated with cross-functional teams to gather requirements and implement solutions, leading to seamless integration of new features.
• Demonstrated ability to troubleshoot and resolve complex technical issues, ensuring optimal functionality of software applications.

Projects

Education-Platform [Link] [GitHub]
Next JS, Javascript, Tailwind css, Postgree SQL

An intelligent course generation platform that leverages AI to create personalized learning experiences. Built with Next.js, this platform enables educators and learners to generate comprehensive courses with AI-powered content, video recommendations, and interactive learning paths.

Resume-checker [Link] [GitHub]
Next JS, Tailwind, typescript

An intelligent tool designed to help job seekers optimize their resumes. This application analyzes your CV against a specific Job Description (JD) to provide actionable feedback, an ATS compatibility score, and personalized recommendations.

cost-tracker [Link] [GitHub]
Next JS, Node.js, MongoDB, Prisma

Tracker AI is an intelligent expense tracking application that transforms financial management through AI-powered categorization and insightful analytics. This comprehensive solution combines cutting-edge artificial intelligence with an intuitive design to help users optimize their budgets and make data-driven financial decisions.

Quiz-app [Link] [GitHub]
Next JS, Node JS, Tailwind css

A modern, interactive single web application for testing knowledge in web development technologies including HTML, CSS, JavaScript, and React.

Resume-Builder [Link] [GitHub]   Next JS, Node JS, tailwind css

A modern, interactive web application for building ATS-friendly resumes with real-time preview, AI-powered content generation, and professional templates.

Education

Technical University of Brandenburg   09.2022 - 06.2025

Bachelor of science in Computer science

- Completed a practice-oriented Bachelor's degree in Computer Science with a strong foundation in both frontend and backend development, algorithms, data structures, and software engineering principles. - Gained hands-on experience in web technologies, database systems, and software design patterns through project-based coursework and collaborative development. - Developed problem-solving and clean coding skills, with a focus on building user-friendly, maintainable, and efficient software solutions.

Skills

Java , Javascript , Spring boot, Django , Node JS, React JS, Python
